### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert Fergan on 10/28/04.

The application has been amended as follows:

- Claim 1, lines 12 and 13 have been replaced with the following paragraph: --a battery switch for coupling said battery to one of said eddy current devices and said generator; and--.
- Claim 1, line 20 has been replaced with the following phrase: --generates signals for the battery switch to couple said battery to said eddy current devices.--
- Claim 7, line 8 has been replaced with the following phrase: --ramp time to produce a braking force corresponding to the actuation of said braking switch;--
- Claim 7, line 11 has been replaced with the following phrase: -- current devices from the generator to continue said braking force.--

2. The following is an examiner's statement of reasons for allowance: McNair et al. show a back up mode wherein an eddy current device for drilling equipment is supplied with the power from a battery when the main power fails to maintain power to the brake. Kimura shows a method of supplying the power from a battery to an eddy current device

to thaw out the retarder in case of freezing ice and stop supplying power to the eddy current device after a predetermined time. However, neither McNair nor Kimura teaches the step of energizing the eddy current devices by supplying power to the eddy current devices from the generator to continue applying the brake to maintain the same braking force.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lan Nguyen whose telephone number is 703-308-8347. The examiner can normally be reached on M-F, 8 to 4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jack Lavinder can be reached on 703-308-3421. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
